

Alpha Mobile Power Station

Alpha Keeps Switchgear/Substations Online While Providing Critical Maintenance

Alpha's Mobile Power Station is a **fully portable, backup power solution** providing uninterruptible operation to critical switchgear and substation sites when taken offline for maintenance. **Ideal for emergency backup and substation maintenance**, trailers can be customized with various battery types including valve regulated lead acid batteries, flooded lead acid batteries or nickel cadmium batteries, as well as a Cordex rectifier to help maintain constantly charged batteries.

The Complete Alpha Mobile Power Station Offering Includes:

- AlphaCell batteries
- Cordex rectifier
- Spill containment system
- AC panel
- DC distribution panel
- Safety equipment required by OSHA, NFPA and IEEE

Ideal for use during maintenance and troubleshooting, Alpha's Mobile Power Station is an **easy plug-and-play** power solution, providing AC and DC metering, real-time diagnostics and the power protection needed to **ensure constant, reliable power**. For increased protection in extreme weather conditions, Alpha's Mobile Power Station includes an Alpha generator option for immediate AC/DC power to the switchgear site, emergency command center, or even the home.

Details	
Range:	1 to 100kVA
Certifications:	ABS, DNV, CE, UL, CSA and GOSTR
DC Link:	120VDC
Equipment:	Cordex 125VDC Rectifiers, NiCad Translucent Batteries, AlphaRac, AC & DC Panels

AlphaCell batteries options provide reliable energy storage options for any application.

AlphaGen generator operation for immediate AC/DC power.

Standard trailer comes complete with safety equipment as required by OSHA, NFPA and IEEE.

Alpha Mobile Power Station Applications:

Maintenance Power

Emergency Response Power

Remote Power
